

Yesterday, June 24th, 2008, Jim Ellars, VFW Department of Arizona National Legislative Officer, attended a video teleconference with Congresswoman Giffords, Congressman Filner, Chairman of the House Veterans' Affairs Committee, and Congressman Michaud, Chairman of the Sub-committee on Health. He brought up this very issue and they all agree that there is a serious breach of oversight within the VA Health Care System and a House Veterans' Affairs hearing is scheduled with all concerned on July 9 at 10am in DC which will be televised on most cable channels that broadcast such hearings (check C-SPAN).
